15TH February 2018

Hello all Members

Next Meeting 23rd February 2018

I have heard many good and not so good reports of the current breeding season, I hope yours is going well.

I would just like to remind you all that the upcoming Northdowns BS meeting on Friday the 23rd February, usual time.

For your information I would like to clarify the current situation following the AGMs passing of the motion to move the monthly meetings from a Friday evening to Saturday afternoon and taking into account the Ash Bird sale evening.

The hall booking agent was contacted and of the eight requested dates only five were available, March, April, July, September and November, these were booked and for the three remaining dates, February, May, and October, the decision was to book the Friday evening as in the past giving a total as requested of eight meetings for 2018.

It is proposed that at the February meeting, the first part will be to discuss further the events so far and proposed programme for 2018, followed by the member's forum.

Raffle prizes will be much appreciated.
